

The Proclamation

2009

Up Helly A'

2009

THE GUIZER JARL DECREES THAT GUIZERS WILL REPORT AT TIMES AND PLACES INSTRUCTED TO RECEIVE TORCHES. START AT 7.30pm PROMPT. ROUTE AS INTIMATED.

Wir Jarl Stephen, of reMouat northern origins, is a man with the aBality and Understanding to turn our bare site into a well-managed project. He'll be building on long tradition to deliver our complete fiery scheme without any screw-ups, nail-biting crises or snags. His ultimate goal lies in Spurring on his team and Most ravishing mate, to produce a really dramatic show. He'll fairly make them coast along (guaranteed!) with no need to rescue anybody calling-out in distress from our flare-up. After a Rocky ride, we'll deliver the usual cliff-hanger – so expect a fiery ending!

Wir ship, propelled by Viking Energy, is ready for her projected voyage tonight. We'll wind her up to power her way up Hill and down Dale, brushing aside any unSustainable efforts in Shetland to oppose the progress of wir scheme to generate much community goodwill in future. Foxy gulzers caught creating conflict in the ranks will get a severe stirring-up from the high Priest and be brought before the Board for a decision.

Marshal's Instruction: Any Spurious or juvenile guizer, out of his own league, will Harrdly manage here. He'll be sent off so he dissent get hurt in the throw-in and avoids the threat of being flattened under our ranks. Appellants will be referred to the Constable, who nose best; Currenly he's minded to banne dem for twelve months, as doing S.F.A. is not an option!

DOCKSIDE STORY: a reMarkeebie blend of music and cinema, is a real panto starring Gwylly Gybberyns as Prince Charming and Old Mother Hubbard as herself. See how two Shetland Bravehearts keep a SICK goose laying golden eggs! Hear them confound detractors and gloomy punD.I.T.s to build our performing arty-farties the luvviest new home! Watch them thwart ugly sisters GaryRob & JonWilly to maintain the spell cast cunningly on voters by fairy godfather Clueless – it's really unmissable!

A llot o' devilment?

Gie wis land, lots o' land
We can cultivate wi' love
- An' please - fence wis in!
Where we'll dell it by hand,
set wir tatties, understand;
And neeps and kale we'll win:
For we aa want a kaleyard
tae grow mair an' spend less
Da supermarket veggles
have lost their freshness
So rescue wis fae da an'
- An' please fence wis in!

The Forvik Limpets' Anthem:

Who'd save our graceless King? - his name's a noble ring,
CA - LA - MI - TY!

See him - notorious, crappy vainglorious -
Longs to reign o'er us; God, have our King !!

Fitba Focus: (Balls Again)

A Capeable manager-good at coaching, and used
t'winning - now runs our senior team, (but says he
won't work for Peanuts) The Juniors have a new coach too
but it was a bit Rich changing the rules to get a
Bullseye! They haven't done Bradley however; the
prospects are appealing. Finally, All and sundry
aren't in the Island Games-only 1 team has the balls to go!

Cash-flow problems?

His name is Dr Jonathan,
he sails the ocean waves
He fights against the awful waste
of Cluness and his knaves;
He sought the help of Ombudsman
as you'll no doubt remember
But Wills's plea was soon thrown out,
'cos he's a council member.
But Ombudsman, you got it wrong,
you are a stupid knob
For slapping down old Dr Wills,
is Shetland voters' job.

Ex-Jarls' Comment:-"Pit da new slatterhouse onywhaar you laek - sae lang as hit's in Scallowaa'!"
